

K-Love is a huge part of our community. It provides a way for me to spread my ideas to others. It is a way for me to have free speech, since it is my radio station. It gives positive and encouraging music and I feel that it could be in jeopardy if you limit my free speech and continue with your LPFM.

I feel that non-commercial stations, that require large numbers of support to keep up, will be forced under if their coverage area is interrupted. They have large capital invested in equipment. Money that is part of my family's income. We support this station because it is an outlet of information that is religion oriented and I believe that they are a service to the community. I would be upset if I had no Christian radio station to turn to--this means I would be forced into listening to underregulated obscene trash on other radio stations.
